Saber Tiger

A Heavy Metal Band founded in the late 80's at Namchun High. It originated with the grand vision of becoming one of the greatest heavy metal bands in South Korea, but it later turned into a delinquent group – one of the most notorious of the 90's. It virtually disappeared in the 2000's after a government crackdown on school violence. However, in the last two years, it was revived as a delinquent gang under the leadership of Lee Ji-Hoon of Masan, also known as the Masan Batter.

* It currently has absolutely nothing to do with heavy metal.
